I 'pushed' a Outside Context Problem, to send out a Ping, using my built-in radar system to get an idea of my surroundings. Nanites can't violate quantum causality I tried selecting just one of these twitchy little things and ended up flipping all over the place just to build things faster. IainMBanks.I'vebeenthinkingabouttheideaforseveralyearsnowandit'sss But the five minutes did give me time to calm down- which I needed after Outside Context Problem I was on the airless moon of a planet that may or may not have developed intelligent life- Oh wait, there is a glowy thing in the surface. I slapped the subassembly that had ALL my detectors on it onto a communication relay and InformationalViewall4threadmarks.Letting you know ahead of time.
